

March 29th, 2019

To clubs and NF participant
World Master's Championships 2019

Finswimming Commission
Michel GAUNARD

This notice concerns relays registration

Information Notice

I would like to draw your attention to a point of the master's Championships Rules which may present some difficulties. According to the rules

The relay teams can be club (i.e. composed by athletes belonging to the same club) or federal teams (i.e. composed by athletes belonging to the same national federation).

The novelty is that national federations may present relay teams, but it is made clear that these teams are *not* national ones.

A federation can present more than one relay team in each age group. (As is also possible for clubs).

A difficulty exists unfortunately. The current CMAS registration system is not designed for such a situation. Indeed, technically, he can't accept the registrations of the Federations with swimmers of different teams. Similarly, he can only record one relay per category.

Thus, for all relays the federations which wish to present or clubs if they want to present more one team per category, please use the excel form attached. You can send the form to cednuotopinnato@fipsas.it or at least to give at arrival to the secretary office.

In all case, the corresponding fees of registration for the additional relays will be paid at arrival to the secretary office.
